**TBC Brands Introduces the Harvest King Field Pro R-Gator and Field Pro R-Gator ND**

*The successor to the Harvest King R-Gator and R-Gator ND*

Palm Beach Gardens, FL – September 8, 2020 – [TBC Brands](#), one of the largest distributors of proprietary brand tires in North America, is continuing its commitment to providing dealers quality products at profit maximizing prices with the introduction of the Harvest King Field Pro R-Gator and Field Pro R-Gator ND. The next generation Field Pro R-Gator and Field Pro R-Gator ND are engineered with a stronger lighter weight construction than their predecessors. With the addition of design enhancements focused on improving overall performance including less slippage and improved cleaning capabilities these new tires will provide an exceptional product for irrigation equipment.

The Field Pro R-Gator and Field Pro R-Gator ND are tubeless irrigation tires with special anti-ozone compounds designed to protect the tire from the elements. The tread design reduces crop and soil disturbance while limiting mud and debris buildup on the tire.

“We’re excited to upgrade our irrigation farm tire program with the addition of these new products and we’re confident that the evolution of the Harvest King Field Pro line, as well as the price point, will be very appealing to dealers and their customers,” said Bill Dashiell, SVP of the Commercial Tire Division for TBC Brands. “The enhanced design of the Harvest King Field Pro line is something we’re really proud to be able to share with the farm community.”

The tires are available in sizes 11.2-24, 14.9-24 and 11.2-38 and can handle loads between 2,000 – 3,000 pounds.
